

DC/DC Converter, type 6861-4

- With the DC/DC Converter 24 V-loads can be operated on 12 V-vehicles directly without intermediate batteries.

Technical data	
Electrical data	
Input voltage	9,5 V ... 16,5 V
Output voltage	24 V ($\pm 0,5$ V)
Output current	25 A
Standby current max. (on/off)	55 mA / 1 mA
Ambient conditions	
Ambient temperature	-20°C ... +50°C
Protective type	IP 68 (without connections)
Mechanical data	
Dimensions	208 x 216 x 81 mm
Weight	approx. 4,2 kg
Ordering details	
Designation	Order no.
DC/DC Converter, type 6861-4	295389

Caution:

Please note the manufacturer's instructions regarding the installation and operating conditions.
