

BARTEC Safe.t® Newsletter

Current Information on the World of Safe.t Technology

Dear Sir or Madam,

The BARTEC Safe.t® Newsletter provides you with current information on new products and trends in the BARTEC World of Safe.t Technology. This time the focus is on the upcoming **BARTEC Expert Congress on October 4/5, 2007**. Under the main topic of "Chances arising from innovations in safety technology – Internationalisation and harmonisation", renowned referents from economy, science and ministries will talk about their practical experiences.

We are looking forward to an exciting information and experience exchange with you!

Kind regards

Your BARTEC Newsletter Team

Third BARTEC Expert Congress – Information on the Highest Level

With the Expert Congress on the topic of safety taking place in Bad Mergentheim every year, BARTEC Safe.t® Academy offers an ideal platform for the exchange of information and experiences between manufacturers, operators, testing authorities and the legislator.

Not only the latest branch trends will be discussed, but also special topics such as internationalisation and innovation. Participants will have the unique occasion of receiving information on the highest level. The final panel discussions with the referents will intensify the exchange of experience...
