Phone: +49 7931 597-0
Fax: +49 7931 597-183

We herewith confirm that the

Resistive coupling elements
Type 17-9Z63-0002
Manufacturer: BARTEC GmbH

used by BARTEC for intrinsically safe circuits:

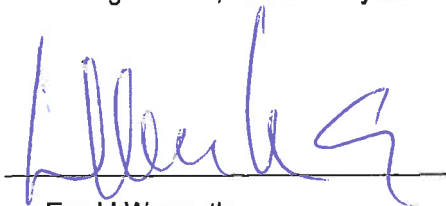

- conform as a simple piece of electrical apparatus to the requirements under EN 60079-11, Section 5.7.
- have negligibly low capacitance and inductance
- are assigned to temperature class T5 in accordance with the regulations in EN 60079-11, Section 5.7, Point 5). The maximum power of the resistors must be taken into account by the constructor.
- In accordance with EN 60079-14, this component is not marked because it is a simple piece of electrical apparatus.

Complete technical documentation is available.

These components may not be put into operation until it has been established that the system into which they are to be fitted conforms to the provisions of the EC directives, harmonised standards, European standards or the appropriate national standards.

We herewith confirm that the delivery complies with the agreements entered into when the order was placed.
