

Floater, type 6706-106

Floater for dipstick, type 6706-10, for densitometry.

Suitable for liquids with a density of 600 - 1000 kg/m³, oil-proof and petrol-proof.

Technical data	
Mechanical data	
Diameter	Ø 72 mm
Height	137,5 mm
Opening	Ø 11 mm
Ambient conditions	
Admissible operating temperature	- 20 ... + 60 °C
Admissible storage temperature	- 20 ... + 60 °C
Application area	Only for application in explosive areas of the group IIA
Pressure	0,05 MPa = 0,5 bar max
Ordering details	
Order no.	205687
